## SECONDARY COLOR MIXING CHART

Thank you for downloading my watercolor chart !

I hope what you find below will come in handy. Simply **download and save this file** on your computer as a convenient reference. The whole point of this chart to discover the different kinds of secondary color mixes you get using six primary color paints (3 cool primary colors and 3 warm primary colors). **To make true saturated secondary colors you must use very specific paint mixtures.**

[You'll find my personal paint recommendations on my site here...](#)

A quick reminder about warm and cool colors:

---

# ORANGE

*Cool Yellow*  
(Lemon Yellow)

+

*Warm red*  
(Pyrrhol Scarlet)

=

*Cool Yellow*  
(Lemon Yellow)

+

*Cool red*  
(Quinacridone Rose)

=

*Warm Yellow*  
(New Gamboge)

+

*Warm red*  
(Pyrrhol Scarlet)

=

*Saturated Orange* \*

*Warm Yellow*  
(New Gamboge)

+

*Cool red*  
(Quinacridone Rose)

=
